

Dear all

With apologies for cross-posting.

Allianz Climate Risk Research Award 2018 is now open for applications from PhD students, recent PhD graduates and post-doctorate researchers. It is open to both social and natural sciences researchers. Please circulate widely to your colleagues, students and anyone else who may be interested. Thank you.

Best wishes,

Erwin

Allianz Climate Risk Research Award

Call for applications

Hello Erwin,

Trust you're doing well!

Applications for this year's edition of the [Allianz Climate Risk Research Award](#) are now open.

What are we looking for?

**#climate change #risk assessment #natural
catastrophes #resilience #insurance #protection gap #innovation #practice-
oriented #remote sensing #digitalization #big data #risk modelling #GIS**

...in a nutshell: We are looking for research which focuses on **extreme weather events and possibilities to foster resilience by applying technological solutions**. We plan to invite the top four finalists to an award event in Munich in November 2018 and would support their research with a monetary award of up to € 7000,-. In addition, we will publish the ten best essays (based on own research) in a compendium.

We invite PhD students, recent PhD graduates and post doctorate researchers from social and natural sciences to apply by **1 July 2018**.

We would kindly like to ask you to support this initiative by spreading the word via your communication channels. In particular, you could mention that you were a finalists for the 2017 edition and share your experiences.

All information is available on our website <https://www.allianz.com/en/sustainability/low-carbon-economy/climate-risk-research-award/>

Please follow our page on [LinkedIn](#) to receive regular updates on the Award.

Kind regards,

Benjamin
