# URBAN GATEWAY

For The International Urban Development Community

## Making Cities Work for Every Body

I believe that we all have the potential to create social impact, and I'd like to share with the world the secret recipe to help unlock that potential in an effort to build cities that work for every body....[Read more](#)

## Knowledge

Are our cities effectively planning for climate change?

Innovative Urban Financing Can Make Our Cities Stronger

'Socially Aware Planning' Key to Building and Sustaining Communities

What slums can teach us about building the cities of the future

## Integrating Green and Gray : Creating Next Generation Infrastructure

A new generation of infrastructure projects that harness the power of nature can help achieve development goals, including water security and climate resilience. In this report from the World Bank and World Resources Institute, both organizations are calling for green infrastructure, such as mangroves and wetlands, to play a bigger role in traditional infrastructure planning. Integrating nature into mainstream infrastructure systems can produce lower cost and more resilient services....[read more](#)
