

Call for postdoctoral researcher: Centre for Sustainable Urban Development, CEDEUS, Pontificia Universidad Católica de Chile.

This is a great space to be working at the moment. Well connected internationally, grappling with issues of sustainability and equity, with many barriers but also some substantial opportunities, that make good research particularly exciting.

ENGLISH TEXT:

CEDEUS (Centre for Sustainable Urban Development, www.cedeus.cl) – a CONICYT-funded initiative between P. Universidad Católica de Chile and Universidad de Concepción, invites to apply for a postdoctoral position for the research line on Access and Mobility, starting on June 2019.

CEDEUS is an interdisciplinary research Center, which brings together leading researchers in the field of Sustainable Urban Development. The Center has four research lines: Access and Mobility, Socio-spatial Dynamics, Built Environment, and Critical Resources. The mandate of the Centre is promoting learning and knowledge transfer, generating new ideas on critical issues of sustainable urban development in Chile and around the world. We have a number of ongoing projects on these issues, in which the successful applicant could participate, leading some projects, and collaborating with other researchers at the CEDEUS Centre on others with whom we are involved.

In this context, the postdoctoral research is expected to:

- Publish on high impact journals indexed in Web of Science (at least two papers per year)
- Coordinate the research work in one of the interdisciplinary projects in the Center
- Support outreach activities through the Policy and Practice Unit from the Center
- Have the possibility to teach or support an undergraduate or graduate course at the Department of Transport Engineering and Logistics

The job location is in Santiago, at P. Universidad Católica de Chile Campus Lo Contador or San Joaquín. A salary of Ch \$ 2,000,000 per month (approximately US\$ 36,000 annually) is offered for a full time position (44 hours per week). The position can be for a period of a maximum of three years, subject to the assessment on the advancement of the position and publishing compromises.

REQUIREMENTS

- D. obtained in the last five years (march 2014 the earliest)
- Have an undergraduate degree on the fields of Engineering, Architecture, Geography or Urban Planning
- Experience on research themes related with urban sustainable development, mobility, and the urban context

OTHER ABILITIES

- Teamwork, management, and administration
- Capabilities to adapt to new contextual situations

DOCUMENT TO APPLY

In order to apply, the candidate must send the following documents to Tomás Rossetti (terosset@uc.cl):

- Motivational letter
- Curriculum Vitae (including participation on research projects and publications).

- Ph.D. certificate
- Abstract of doctoral research (1 page).
- Brief research proposal (1 page).
- Two recommendation letters

The selection process involve three stages:

- Revision of documentation.
- Personal interview
- Final selection

The organizers reserve the right of no selecting any candidate. The application process and reception of documents finish on 30 April 2019. The results will be ready starting on 30 may 2019.

Estimadas y Estimados,

Compartimos con ustedes la siguiente convocatoria a concurso Postdoctorado para que nos ayuden difundiendo entre conocidos y posibles interesados.
