
Postdoctoral Research Fellowship at the Global Centre on Healthcare and Urbanisation, University of Oxford

We have an exciting opportunity for a postdoctoral researcher to join Kellogg College's Global Centre on Healthcare and Urbanisation, working on a Commission on Creating Healthy Cities. You will have experience in applied research and evidence synthesis to deliver reports and supporting evidence reviews for the Commission.

You will be required to work independently, and to possess the skills and capacity required to undertake work through to publication. You will also support independent research that fits within the Centre's remit and long-term vision, bringing together current research and practice in sustainable urban development and urban health issues.

The position is full time, on a fixed term basis for 18 months.

All applicants will be required to upload a CV and supporting statement.

Application deadline: noon, Monday 12 April 2021

Interviews: Friday 23rd April 2021
