### [Readings in Planning Theory](#)

Third Edition

Edited by Susan S. Fainstein and Scott Campbell  
*Harvard University, USA; Michigan University, USA*

The third edition of the highly successful *Readings in Planning Theory* continues its well established role in defining the most current debates within the field of planning theory - identifying its boundaries, presenting the works that constitute its central focus, and addressing the central issues that face planners as theorists and practitioners.

Key Features:

- Expands the focus on international planning by including globalization and theories of development
- Includes new readings that examine themes emerging in planning theory
- Features new case studies of planning success and failure on both sides of the Atlantic
- Examines the current state of planning theory and the new directions it has taken in recent years
- Draws on a wide range of authors who address planning history, arguments for and against planning, competing planning styles, planning ethics, the public interest, and considerations of race and gender
