<http://www.sabi.sep.gob.mx/>, Cierre de la convocatoria el **31 de Agosto, 2016**

Información adicional acerca de Mitacs Globalink la pueden encontrar en: <http://www.mitacs.ca/en/programs/globalink/globalink-research-internship>

Asimismo les comparto algunas noticias sobre el nuevo acuerdo de Mitacs y CONACYT:

First-ever bilateral industrial internships for Canada and Mexico

<https://www.mitacs.ca/en/newsroom/news-release/first-ever-bilateral-industrial-internships-canada-and-mexico>

Mitacs partners with Mexico's National Council of Science and Technology to foster R&D student internships

The bilateral agreement, which was welcomed by Prime Minister Justin Trudeau and Mexican President Enrique Peña Nieto, was

signed today by Alejandro Adem, CEO and Scientific Director of Mitacs and Enrique Cabrero Mendoza, Director General of CONACyT. The partnership allows for the exchange of up to 20 graduate students per year from Mexico and Canada to undertake 16- to 24-week industrial research internships with local companies in each country.

The program is a first of its kind to foster bilateral industrial research internships for Canadian and Mexican students. It's modelled after Mitacs' successful domestic internship program, Accelerate, which pairs graduate students for collaborative research projects with industry partners in Canada.

Globalink Partnership Award

<https://www.mitacs.ca/en/programs/globalink>

The Mitacs Globalink Partnership Award offers graduate students at Mitacs full and associate partner universities in Canada the opportunity to participate in a 16- to 24-week research project with an international industry partner located in any country except the United States.
