

Dear colleagues,

From the Department of Statistics and Operations Research II of the Faculty of Economics and Business Administration Sciences of the Complutense University of Madrid (UCM), we want to inform you about the following activity we have organized because of The International Year of Statistics 2013:

Applied Statistics Contest

<https://www.ucm.es/estadisticaeio-2/2013,-ano-internacional-de-la#Concurso-Estadistica-aplicada>

In this link you can find the rules of the contest, directly available at:

<https://www.ucm.es/data/cont/docs/177-2013-11-05-StatisticsContestUCM-EeIOII.pdf>

Department of Statistics and Operations Research II (Decision-Making Methods)

<https://www.ucm.es/estadisticaeio-2>

This contest is open to the personnel of public and private centers and companies, it is not restricted to the academic field. If you find it useful, we would also be very grateful for your spreading of this information both to other departments or sections of your institution or to other public and private research centers, business schools, big companies, scientific academies and organizations, et cetera.

We thank you very much for your collaboration and help.

Kind regards,

David Casado.
