

From: René Zenteno, Executive Director of ConTex

To: Presidents and General Directors, CONACYT Centers

Subject: Postdoctoral Fellowships & Collaborative Research Grants for 2017

ConTex is pleased to announce a call for proposals for postdoctoral fellows and collaborative research grants for 2017.

ConTex is a partnership between **UT System** and Mexico's National Council of Science and Technology (**CONACYT**) that supports new programs, including giving Mexican Ph.D. students educational opportunities at UT institutions, exchange of postdoctoral and faculty fellows, mobility of non-degree seeking graduate students (short-term visits), and collaborative research projects.

Postdoctoral fellowships will financially support Mexican postdoctoral scholars in UT System departments and institutions to pursue research and study, as well as UT System postdoctoral scholars at Mexican institutions.

Collaborative research grants will provide seed-funding to teams of UT System and Mexican researchers beginning projects in basic and applied collaborative research, instructional development, and public service and education projects that apply research to public issues. Projects funded are expected to lead to development of major, long-term collaborations and significant advancement of scholarship.

Prospective postdoctoral fellows and researchers can apply for funding/research grants through context.utsystem.edu/funding.

Please help disseminate these opportunities at your institutions.

For more information, contact: David Vassar at david.vassar@utsa.edu or Rodrigo Bueno Romo at rbuenor@conacyt.mx
