# Master of Science in Urban Studies

## Study urban studies in the capital of Europe!

The majority of the world's population lives in cities. Urban culture is reshaping the world: urbanisation and globalisation are two sides of the same coin. **The interdisciplinary and international [Master of Science in Urban Studies](#)** sets out – at the crossroads of sociology, geography, history, cultural studies, and humanistic urban studies – to address this fundamentally novel aspect of the human condition.

At [Vrije Universiteit Brussel](#) you have the chance to study a Master of Science in Urban Studies to manage these global changes. In partnership with the Université libre de Bruxelles (ULB), this two-year programme offers a strong **interdisciplinary perspective** on urban studies. Students follow a core trajectory of shared courses and have the freedom to specialise by individually selecting elective modules and courses such as **Urban Social Geography, Urban Sustainability** and **Circular Economy**. In their second year, students can opt to do an internship (15 ECTS) in Belgium (e.g. at one of the European institutions) or abroad.

By studying in Brussels, you also have the opportunity to explore the most beautiful cities in Europe such as Paris, London or Berlin!

Find out more about the [programme](#)

1. Take the challenge and win an administrative fee waiver worth 600 euro!
2. Fill out the profile form
3. Apply to the University [here](#).
