## Millions of Poor City Children Worse Off Than Rural Peers - UNICEF

Millions of poor urban children are more likely to die before their fifth birthday than those living in rural areas, according to a U.N. study out on Tuesday that challenges popular assumptions behind the global urbanisation trend....[Read more](#)

### [Advantage or Paradox? The challenge for children and young people of growing up urban](#)

Approximately a decade ago, the world officially became a majority urban planet. Along with urbanization a great deal of human progress has come to pass, including great leaps in child survival and development. Aggregate statistics regularly show that on average, compared to their rural peers, urban children have access to better essential services such as health care and education, water and sanitation, energy and better outcomes.
