

Cities of the future

Future cities in a resource constrained world

by Jeremy B. Bentham

The world's fast-growing population is urbanising rapidly. As such, over the forthcoming decades, population growth and the resulting increase in energy use will likely be focused in cities, creating both challenges and opportunities.

How will our cities evolve?

About

The Lee Kuan Yew World City Prize is a biennial international award that honours outstanding achievements and contributions to the creation of liveable, vibrant and sustainable urban communities around the world.

Imagine cities of the future. Cities without cars?
People-focused cities? Our Nominating Committee
members describe how cities will look like in the future.
