

Dear colleagues

There is an opportunity for early-career and experienced researchers to establish their own research team in a research institution in Turkey and to be funded by TUBITAK (The Scientific and Technological Research Council of Turkey) for 24-36 months. The fellowship provides a research grant for 500k-1m Turkish Liras (€80-160k) and a stipend of 24k (max) monthly (approx.€4000) as well as travel and family allowances and scholarships for PhD students working in the team. The call is a very new one and open until 15 February.

Details about the fellowship can be found here: http://tubitak.gov.tr/en/news/the-international-fellowship-for-outstanding-researchers-programme-call-has-been-launched#_ftn6

Appication portal can be accessed via: <https://e-bideb.tubitak.gov.tr/giris.htm?language=en>

As Istanbul Technical University (ITU) Faculty of Architecture, we are particularly interested in researchers working in the fields of architecture, urban and regional planning, mobility, industrial design and landscape architecture.

ITU Faculty of Architecture is one of the most established architecture schools in the region and hosts five departments with over 200 members of academic staff and almost 3000 students enrolled in five undergraduate and 20 postgraduate programmes.

http://arch.itu.edu.tr/eng2/?page_id=25454

If you are interested in applying the fellowship and to be hosted at ITU, please do not hesitate to contact me for further enquires.

For more information about the scholarship, you are advised to contact TUBITAK bideb2232@tubitak.gov.tr

Please forward to colleagues who may be interested in the call.

Best regards

Eda
