Knowledge

[Financing a Resilient Urban Future : A Policy Brief on World Bank and Global Experience on Financing Climate-Resilient Urban Infrastructure](#)

In the coming decades, climate change will force cities to grapple with new operating conditions to construct and maintain key urban infrastructure. Strategies for covering the costs of climate-resilient upgrades will vary by locale, reflecting differing market, regulatory, and policy circumstances. This policy brief draws on World Bank experience and datasets and a review of academic and grey literature on financing three core urban infrastructure systems – water, transport, and energy.
