### About

The Lee Kuan Yew World City Prize is a biennial international award that honours outstanding achievements and contributions to the creation of liveable, vibrant and sustainable urban communities around the world.

The Prize is awarded to cities and recognises their key leaders and organisations for displaying foresight, good governance and innovation in tackling the many urban challenges faced, to bring about social, economic and environmental benefits in a holistic way to their communities.

## How healthy are our cities?

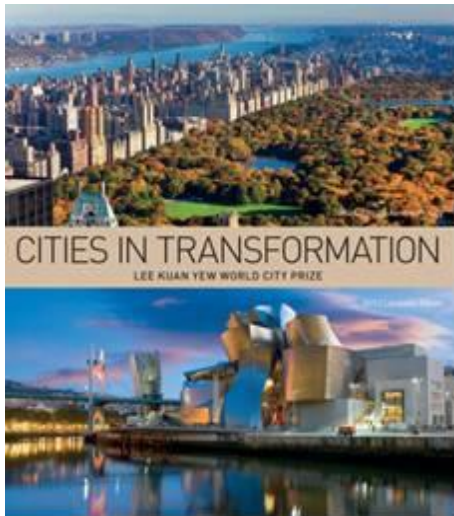

For the first time in history, more than half the world's population live in cities. This urban growth has led to socio-economic and health imbalances, yet urban residents overwhelmingly enjoy better health than their respective countries' national averages. Can the world's cities deliver future health and wellbeing?

Joseph Jones reports.
