

New Book: **Environmental Economics and Investment Assessment II**

WIT Press has announced that the published proceedings of the Second International Conference on Environmental Economics and Investment Assessment are now available. The conference was held in Cadiz, Spain, May 28-30, 2008, organized by the Wessex Institute of Technology in collaboration with the University of Cadiz, Spain and the National Technical University of Athens, Greece.

The book discusses investment assessment and environmental economics in an integrated way, in accordance with the principles of sustainability, considering the social and environmental impacts of new investments. It addresses the perceived conflict between financial development and environmental protection and discusses and proposes a more constructive and progressive approach to growth to ensure sustainability, including appropriate methodologies. The contributions are organized in the following categories: Economy and the Environment; Environmental Policies, Planning and Assessment; Cost- Benefits Analysis; Natural Resources Management; Environmental Performance; and Social Issues and Environmental Policies.

The book will be of interest to government officials, politicians, environmental experts, economists, and research scientists in the area of environmental economics, operations researchers, senior management in all kinds of companies and regional government.

ISBN: 978-1-84564-112-2; 336pp; Price: US\$220.00/£110.00/Euros 165.00
