

Call opened for a Pos-doc grant under the H2020 Project \hat{O} at the Centre for Governance, Competitiveness and Public Policies (GOVCOPP) – Department of Environment and Planning (DAO) of the University of Aveiro (UAVR) published on the Online Journal of the University of Aveiro Portugal.

In the context of the project *Demonstration of planning and technology tools for a circular, integrated and symbiotic use of water (Project \hat{O} ; Grant Agreement No. 776816)*, financed by the European Union's Horizon 2020 – the Framework Programme for Research and Innovation (2014-2020) (Topic: CIRC-02-2016-2017 Industry 2020 in the Circular Economy), it is opened a concourse for award of a Postdoc Grant (BPD) at the Centre for Governance, Competitiveness and Public Policies (GOVCOPP) – Department of Environment and Planning (DAO) of the University of Aveiro (UAVR). Follow the link to see the conditions and procedure for application.

The Postdoc will develop evidence-based knowledge regarding the planning and governance conditions that may hinder or facilitate the transition to water circle economy. taking into account the integrated water resources management concept. This overall objective will be developed after the structuring of the necessary information and data as well as related collection with the local support from each of the case study demo-sites in several countries. Within this overall objective, the key functions of the team member include (i) to assess the bottlenecks to integrating water circular economy approaches into current water resources planning and spatial planning institutional frameworks; (ii) to identify innovate approaches that foster its integration through innovative regulations, planning and governance schemes; (iii) to formulate key drivers for the reinforcement of planning and governance approaches, and to contribute to co-creative schemes able to facilitate the transition to water circular economy; (v) to communicate the work with colleagues and stakeholders by way of dialogue, public presentations, research reports and scientific papers; and (vi) to provide programming, data management and literature review support as required, and perform miscellaneous job-related duties as assigned.
