

Dear Clara

I recently have published a textbook on **GEOGRAFÍA ECONÓMICA: UNA INTRODUCCIÓN CONTEMPORÁNEA** (Facultad de Economía, UNAM). The book is available for download here:

<https://fiona.uni-hamburg.de/e2bfe5e6/parnreiter-2018-geografiaeconomica.pdf>

Though it is a textbook on economic geograohy and not exclusively on urban studies, I guess that urbanists could have itnerest, too. There is a section on cities, and there are many other issue relevant for urban scholars and students interested in these matters (e.g. the subprime crisis).

To cut a long story short: Since UNAM's capacities for distributing the book outside Mexico (and some would even say, outside the Campus of the UNAM) are somewhat limited, I have a strong interest in distributing the book as pdf. ?

Thank
all the best
Christof
