

Apologies for any cross-posting

Dear all,

The Urban Big Data Centre, at the University of Glasgow, is seeking a Research Associate to make a leading contribution to research on urban housing and neighbourhoods using new forms of data, working with Dr Mark Livingston and Professor Nick Bailey.

The successful candidate will also be expected to contribute to the formulation and submission of research publications and research proposals as well as help manage and direct work within this complex and challenging project as opportunities allow. You will need a training in the social sciences with strong quantitative research skills. You will be able to demonstrate an interest in the social and/or environmental issues related to housing, neighbourhoods or urban systems, and a desire to shape policy and practice in this area. An interest in the role of new forms of data in urban research, in social surveys and/or in urban sensors would be welcome.

Salary will be on the University's Research and Teaching Grade, level 7, £35,845 - £40,322 per annum. The post is full time with funding up to 2 years in the first instance.

The deadline for applications is 29 June 2021.

For full details and to apply visit the UBDC website: <https://www.ubdc.ac.uk/working-with-us/opportunities-vacancies/>

Please feel free to share this opportunity with your networks.

Best wishes,

Rhiannon
