

Thematic Project:

**SOCIO-SPATIAL FRAGMENTATION AND BRAZILIAN URBANIZATION: SCALES,
VECTORS, RHYTHMS, FORMS AND CONTENTS
(FRAGURB)**

Selection process of post-doctoral fellowships

The GAsPERR (Research Group Space Production and Regional Redefinitions), hosted at the Faculty of Sciences and Technology, UNESP (São Paulo State University), Presidente Prudente, SP, Brazil, makes public the selection process for two postdoctoral fellows who will carry out their activities with the thematic project Socio-spatial fragmentation and contemporary urbanization: scales, vectors, rhythms, forms and contents (FrgUrb), on the themes “Spatial Practices and Everyday Life” (1 fellowship) and “Public Space” (2 fellowships).

Informations

- The postdoctoral fellowship will be awarded for at least 12 months. There is a possibility of extension, but this will depend both on the evaluation of Fapesp, regarding the extension of the project, and regarding the granting of expansion of fellowship quotas.
- According to current regulations, fellowship holders may be terminated and/or replaced in case of withdrawal or performance incompatible with the work plan.
- The selected person will receive a Monthly fellowship of R\$ 8.479,20, installation assistance and technical reserve to cover expenses directly associated with the research, according to FAPESP’s table and rules available in <http://www.fapesp.br/rt>.
- For more information, observe the questions related to PD grants associated with thematic projects in <http://www.fapesp.br/270>.

- The selected person must reside in Presidente Prudente, São Paulo State – Brazil, and be available to carry out trips corresponding to the field work foreseen in the general plan of the thematic Project. Considering the situation of the covid-19 pandemic, UNESP and the Research Group already have adequate guidelines and protocols so that activities can be carried out in person or, in situations where appropriate, via virtual means.

Registrations

Those interested in enrolling in the selection process should send:

1. Fill in the worksheets, according to the option of enrolment for work plan 1 or 2 or 3. During the selection process, according to the evaluation of the documents sent, supervisors may propose transfer of enrolment from one plan to another, in order to better adapt the profile of candidates to what is being proposed.
2. Text of up to 5 pages (in a specific table inserted at the end of the spreadsheet) presenting and dealing with the topics mentioned in which you summarize your proposal for the development of the work plan in a manner consistent with the objectives of the FragUrb Project. It is very important that, in this text, the candidate also points out: a) which actions, participations or publications of his training as a researcher present interface with the proposed theme; b) what internationalization experiences (internships, publications, participation in events, etc.) have you experienced so far.
3. Complete Curriculum Vitae in PDF format (extracted from Lattes Platform – www.cnpq.br/lattes, if Brazilians; having the curriculum in this format is not a requirement for foreign candidates).
4. Copy of the Doctoral Thesis (in PDF format) and diploma or attestation of the defense of the Doctorate, for Brazilians, or corresponding document for foreigners.
5. Applications should be sent to fragurb.posdoc@gmail.com. The applicant must request confirmation of receipt of applications so that they can be sure that the application has been received.
6. Applications must be sent to the address fragurb.posdoc@gmail.com.

Selection process

The selection of fellowship holders will be done through the evaluation of:

- His/her background as a researcher (subject and area of the master's and doctoral degree; research projects in which he participated; publications; orientations already carried out, if any, etc.);
- Text sent, presenting himself/herself as a candidate for the fellowship and dealing with the themes “Spatial Practices and Everyday Life” or “Public Space”;

- candidates who have had their proposals selected, according to the first two criteria, will be invited to carry out an interview with the supervisors of the postdoctoral internship, which will be carried out by Google Meet.

Calendar

Registration with submission of documents over the internet	Until April 30, 2022
Conducting of interviews	Between May 09 and 13, 2022
Disclosure of results, with classification of the selected	Until May 20, 2022
Confirmation of applicants' interest in fellowships	Until May 25, 2022
Beginning of the fellowship holder's activities	September 1, 2022
