

Dear all,

We seek to appoint Professor of Real Estate at the University of Manchester. This senior appointment continues an ambitious plan for the strengthening of the research and teaching capacity in the Department of Planning and Environmental Management in the School of Environment, Education and Development.

We are particularly keen to hear from candidates who can provide leadership in our research in Real Estate as part of our exciting growth plans as we expand our research and teaching in real estate and urban development.

As an equal opportunities employer, we welcome applications from all suitably qualified persons and all appointments will be made on merit. As the School is committed to Athena SWAN principles, we would particularly welcome applications from women, who are currently under-represented at this grade.

Please note that we are unable to respond to enquiries, accept CVs or applications from Recruitment Agencies

Enquiries about vacancy shortlisting and interviews:
