

I would very much appreciate if you can assist in circulating this call for PhD candidates. This project generates collaboration between Psychology and Geography research in an EU funded project.

Host organization: Bar Ilan University, Israel; contact: noa.vilchinsky@biu.ac.il

The PhD-student will work within the EU Horizon 2020 funded project ENTWINE (The European Training Network on Informal Care) a 4-year Marie Skłodowska-Curie Innovation Training Network (ITN); . This thematic PhD-project will assess potential personal and socio-geographical barriers and facilitators to provide care, and relate these to willingness to care and caregivers' outcomes in the ENTWINE-iCohort study.

This project will provide a comprehensive mapping of personal and geographical barriers and facilitators of caregiving, and their contribution to informal caregivers' outcomes and willingness to care. This knowledge will enhance the ability to develop personalized and geographically wise, and therefore sustainable and implementable services for different informal caregivers from different settings across Europe.

Specific requirements for potential candidates:

A candidate who completed a BA and MA in Psychology in one of the universities endorsed by Bar-Ilan University. Grades must be in the upper second class for both degree and thesis. Required skills include a sound background in (health) psychology, and familiarity with qualitative and quantitative research methods. A background of behavioral geography and experience with geographical information systems (GIS) and Python analysis is highly welcome. Candidate must be proficient in English.
