

Dear colleagues and friends,

I hope this email finds you all well and in good spirits.

At UIUC we are searching for a new faculty at the rank of Assistant Professor. We are seeking a new colleague whose research is on environmental planning issues (for example climate change adaptation, natural hazards, environmental justice, water and air pollution, or urban sustainability) in the Global South (namely Asia, Africa, Latin America and the Caribbean). Please bring this to the attention of potential candidates. I would be so most grateful for your help to spread the word and answer your questions. For full position announcement

please see: <https://jobs.illinois.edu/academic-job-board/job-details?jobID=104041&job=college-of-fine-applied-arts-assistant-professor-department-of-urban-and-regional-planning-104041>

Best Regards,

Ariam
