Edited by **Michael Cohen, Maria Carrizosa, Margarita Gutman**

Published by Routledge

This book evaluates the impact of 20 years of urban policies in six Latin American countries: Argentina, Brazil, Chile, Colombia, Ecuador and Mexico. It argues that evaluating the fulfillment of past commitments is essential for framing and meeting the new commitments undertaken at Habitat III. The book provides a critical assessment of the economic, social and environmental consequences of urban interventions following Habitat II. [More information](#)
